

NGS Library Preparation DNA Library Made in a Fast and Simple Way

Quality

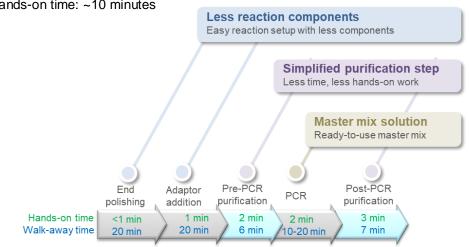

- High library conversion efficiency
 - Better coverage at difficult regions
- Limited GC bias

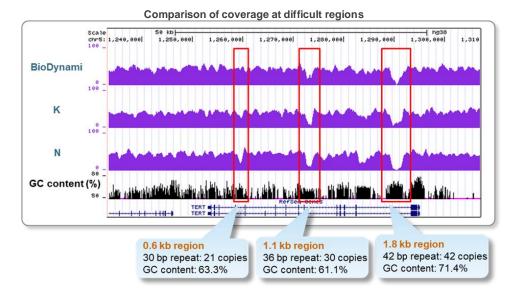

Fast protocol

- Total time: ~1.5 hours
- Hands-on time: ~10 minutes

Simple Workflow and procedure

- Less steps
- Simplified beads purification

Kit List

Illumina platform

Product Name	Cat.#
NGS DNA Library Prep Kit (illumina platform, with non-index primers & PCR reagent)	30009
NGS DNA Library Prep Kit (illumina platform, with index primers & PCR reagent)	30021
NGS DNA Library Prep Kit (illumina platform, with unique dual index primers & PCR reagent)	30023
